Assessor Comments	Good fresh young line of F1 Heifer calves. Every box has been ticked and no corners have been cut in the early development of these females making sure they get the best start possible to grow out and become future vealer mothers. Receiving all the animal health treatments and weaning onto a selected grain/pellet ration with permanent access to quality hay. Ideal calves to take on for anyone wanting some healthy young F1's and not wanting to go through the trying process of bucket rearing. Notes. A small handful of females observed with some healing ringworm signs. Please see photos & video for full contentment.
