These heifers were a little flighty in the yards or when in at assessment. However, they were easy to handle in a larger yard in a low stress environment. They would no doubt improve with more handling/ training. Would recommend going to an experienced cattle person with good facilities.

Assessor Comments

Hard to find line of EU Accredited Angus heifers from a herd with a proven track record of performance. All heifers weighed 320kg+ to average 361kg full (mainly between 320-400kg) with a large tail removed. Linton Park have used Lawsons Angus bloodlines for over 20 years with selection on marbling and growth traits - the last consignment of steers that went to Rangers Valley Feedlot averaged a marble score of 4.3 with the majority (98%) achieving the Black Onyx brand requirements (3+ Marble score) and 41% achieving the elusive Black Market brand for a 5+ marble score. Ideal heifers to join now to target high end beef markets or background onto heavier weights feeder/ kill weights.
