Assessor Comments	An outstanding line of very well bred AA steers, which are based on Yalkuri bloodlines. A very good line of steers which can be either put out into the paddock or into the feedlot. The temperament of these cattle is a credit to the vendors who put a lot of time into the the herd. April/May 2021 drop, weaned since early January. They average 366kg curfewed and range from 316 kg to 489 kg. A small tail was drafted out of the bottom end. They have had the full animal health regime in mid January.
