Preg Tested?

Yes, this lot was pregnancy tested, by Sam Lucas (Vendor/Station) on 03/05/2022.
17 Head (100%) PTIC, from 4 to 6 months (at time of assessment 03/05/2022).

Quality Grades	
Very Good	100%

Temperament

Yards	Crush	Paddock
Quiet: 15 head Slightly Stirry: 2 head	Quiet: 15 head Slightly Stirry: 2 head	Temperament not assessed in Paddock

These cows moved through the yards freely during the assessment process. A few cows became agitated in the crush but calmed immediately when returned to the mob. The cattle are a pleasure to handle, which is a credit to the vendor.

Handled With

Bikes , Dogs , On foot , Vehicles

Assessor Comments

An excellent line of Spring 2013 J drop PTIC cows on Account of Reiland Angus. The Reiland Angus herd is renowned across the East coast of Australia for producing quality Angus cattle to perform in any conditions. These Angus females are joined to high indexing Angus sires (please see attached Bull EBV's). They are fertile & highly productive breeders which will not only provide high quality sale progeny but also offer great genetic gain for the purchaser running a self-replacing herd. These cows on offer had weaners taken off a couple of weeks ago and are in great condition. Buyers please note two cows in this offering have been noted with an old eye scarring in one eye only. Couple of cows noted with white udders/navel. Buyers this is a not to be missed opportunity to purchase high quality Angus genetics that will improve any breeding operation. Cattle come highly recommended by selling agents
