Assessor Comments

Quality line of 2016 & 2017 drop PTIC Angus Cows A/c RAK AG Trust. These large/medium frame cows are presented in their working clothes only having weaners taken off at assessment. The vendor has been using Reiland Angus genetics in their herd for the past 25 years. Cows have been preg tested back in calf to Reiland M99 (please see attached EBV). Cattle are generally for offer due to a change of business directions. Buyers please note: One cow noted with white on their under/navel & One cow noted with an old eye scarring in one eye only. Excellent opportunity to purchase quality Angus genetics which would be an asset to any breeding operation.
