Temperament	Yards	Crush	Paddock
	Quiet: 10 head Slightly Stirry: 1 head	Quiet: 9 head Slightly Stirry: 2 head	Temperament not assessed in Paddock

Heifers moved through the yards freely. They respond to pressure.

Handled With	Bikes , Vehicles
Assessor Comments	Angus/Red Angus and Blue-E X (Shorthorn) vendor bred PTIC heifers. These heifers were joined to Rennylea Angus bulls specifically selected to join to heifers (refer photos for bull data). Heifers previously joined to these bulls are calving without issue. These heifers are classed breeders which were pregnancy aged from a 9 week joining to identify them to have conceived in the final 3-4 weeks of the cycle. Based on the preg testing dates these heifers have been aged to calve in August. These heifers are well grown for age displaying ideal weight and condition and only require maintenance until calving. These heifers worked well through the yards responding correctly to pressure and moving as required. Quality breeder heifers that are ideal to top up numbers or start a herd. Please note vendor is offering 37 PTIC heifers over 3 lots in todays sale. 2 head identified with slight ring worm.
