Assessor Comments	A good quality line of cows in calf to Rennylea Angus bulls. These cows were purchased as part of a larger mob of mixed cows direct from the breeder (with the exception of 1 cow) in early 2020. The bulk of these cows represent one age group. All cows were mouthed and were good solid mouths bar 2, both had a single tooth missing, but not consistent with excessive age. Calves were weaned off these cows at assessment. Cows were preg tested and were all deemed to be more than 4 months in calf. Good honest line of cows with a few years left in them.
