Moved through yards well. Some heifers while being weighed moved around on the scales but when they exited the crush quickly settled down

Assessor Comments: Opportunity to purchase a line of well bred Angus heifers with Milong blood Angus calves at foot. These heifers are doing a great job on their calves. The heifers are out of Large framed Monaro bred cows. These heifers have not been running back with a bull so therefore allows the successful purchaser to join them to the bull of their choice. I believe these heifers would still grow out more and be a nice line of cows in the future. There are 8 bull calves and 5 heifer calves at foot. Nb at assessment there were three heifers noticed with white patches on their udders and also Bathurst Burr seeds were noticed in some of the heifers coat's and around their head.
