Quiet: 11 head Slightly Stirry: 3 head	Quiet: 10 head Slightly Stirry: 4 head	Temperament not assessed in Paddock

Heifers that have really grown up since I last saw them as 20 month old immature young cattle. All were very well mannered going through the yards, just a couple that were a bit concerned, pushing in to the middle of the mob to avoid the pressure, listed as slightly stirry. Those same heifers that were anxious in the yards, were also anxious in the crush, just a bit of stomping and rocking, nothing overly silly. Otherwise a delight to handle.

Assessor Comments	Very stylish line of young Heifers. Bred in the Upper Murray by the renowned black cattle producing, Land family. These females carry 20 years of select Llandarlo Angus genetics in their pedigree. All have very nice balanced bags of milk underneath them, and are doing an excellent job with their young calves. These females are the perfect unit to take on and add to part of a larger herd, or to start off with a core breeding mob of females, especially for a buyer wanting to base their herd on Llandarlo genetics. All bar one of these females had joined in the first cycle, and all calved unassisted, displaying excellent fertility and calving ease traits. Please see photos & video for full contentment. Buyers please note. One heifer presented with a birth mark and 1 presented with an eye blemish, not deemed detrimental.
