Temperament

Quiet: 19 head Slightly Stirry: 18 head	Quiet: 25 head Slightly Stirry: 12 head	Temperament not assessed in Paddock

Very well educated cattle that moved through the process with relative ease. Slightly stirry in the yards is more attributed to stubbornness in old age than anything else. Once in the force, then ideal cattle to handle that filed up and along nicely with the back slide gate to the race left open.

Assessor Comments	A great line of aged out cows that could rear another calf or two. Fantastic well bred mountain cattle with plenty of frame and weight. Have just had a calf taken off them two weeks ago so on an upward plane. Great opportunity to purchase some of the tightly held Glenfalloch core breeding herd cattle that are highly sought after with repeat buyers for the calves. Even though these girls are getting on in years they will make a solid investment. A tail was taken out of theses cows to present a strong line up of mature females. Please note the vendor has two lots in this sale. Being older cows, some issues where observed in possible small bottle teats on four, 2 where slightly lame (have just walked seven kilometers out of the valley the prior day) and some white on the udder was observed in at least 5 cows.
