The cows were extremely quiet at assessment and were not worried about me walking through them

Handled With: On foot , Vehicles

Assessor Comments: A small line of proven middle aged Angus Freisian x Cows with Sharinda blood Angus calves at foot, The cows are a larger framed type cow in store condition that are doing a great job of the calves, They have not been rejoined so the opportunity exists to join these cows to the bull of your choice on the day of your choice, They have consistently reared heavy weight milk vealers when the season has been more favorable than this one, Cows are structurally very sound and good footed with only 1 cow having a slight crack in her front foot, Overall a nice line of cows and calves that are well suited for either a small or large vealer operation
