Temperament	Yards	Crush	Paddock
	Quiet: 27 head Slightly Stirry: 2 head	Quiet: 25 head Slightly Stirry: 4 head	Temperament not assessed in Paddock

Heifers flowed through the yards with ease, when under pressure the odd heifer got up on her toes a bit, nothing of aggressive nature. Throughout the assessment process, a few heifers were nervous in the crush when weighing and stirred up a bit. Overall a very easy, predominately quiet line of heifers to handle.

Handled With: Bikes , On foot , Vehicles

Assessor Comments: 29 PTIC Angus Heifers, presenting well, in forward store condition. Selling due to a surplus of stock, no retention of heifers, would normally have been kept on to breed from but with little room available and new progeny coming through behind them these heifers have come up for sale. Heifers are all PTIC to a low birthweight 'Bowman Performance Genetics' Stud Angus Bull & a 'Absolute Angus' Stud Angus Bull, picked for ability & calving ease. Heifers are due to calve from July onwards for 12 weeks. Heifers are well grown out with a very even frame and structure behind them. This group has been handled well and are a very even line of future breeders. This group handled well in the yards and through assessment. Heifers like this do not come up for sale very often and would suit anyone looking to inject a quality mob of PTIC heifers into their herd. Please note this Vendor has another lot in this sale.
