Assessor Comments	An outstanding line of predominantly Angus x Hereford cows that have held their condition through the summer while feeding their exceptional calves. These cows are in their prime and are only being offered as a part of a genuine spring calving dispersal, they are joined to Mandeyn Limousin Bulls and will commence calving mid June for 8 weeks. A great opportunity to secure large framed sound breeders for years to come. Vendor has a further 2 lines in the same sale. Please note one caw has curled rear toe not considered detrimental.
