Assessor Comments	An exceptional one of younger Angus cows that are PTIC to the Mandeyn Limousin Bulls to commence calving from Late June for 8 Weeks. Cows have done a good job on their last calf and will continue to gain weight given feed and will be great cows for years to come. These cows are being offered as a part of a genuine spring calving dispersal. A great opportunity to secure a even line of sound breeders for years to come. Vendor has a further 2 lines in the same sale.
