Temperament

Yards	Crush	Paddock
Quiet: 49 head Slightly Stirry: 4 head	Quiet: 29 head Slightly Stirry: 3 head	Temperament not assessed in Paddock

Generally quiet cattle with an odd one becoming slightly stirry but would settle down when back with mob

Handled With	On foot
Assessor Comments	A good run of medium & large frame mixed Cows PTIC to Shea-Oak Rise AA Bull with 65 CAF, being more calves than cows due to continuously running with AA Bull and cows having both a younger and older calf. Cows in generally light condition due to feed and size of calves with majority of cows being 6-7 yrs with odd cow older and approx 4 heifers with CAF in mob. A great opportunity to purchase 3in1 packages with a number of heavier weanable calves that would provide a return if sold as backrounders. With older calves removed and shown good feed these productive cows will go on well for intending purchasers. Please note 10 cows from this line were tested undetectable and have been running with AA bull and will be until delivery. 2 Cows were removed due to faults, however calves were left in and will be sold with mob. Odd cow and/or calf has been noted with slightly cloudy eye and may need to be treated. The Shea-Oak Rise AA Bull is also available for purchase, contact delivery agent.
