	Slightly Stirry: 15 head		Slightly Stirry: 15 head		Slightly Stirry: 5 head			
	Stirry: 5 head		Stirry: 5 head					
	Heifers were drafted through a pound on foot and whilst they moved quickly they were blocked and sent into the pound one at a time with minimal fuss. Whilst moving actively through gates opened in front of them none were considered aggressive . Consistent with commercial heifers some when isolated, became a little claustrophobic .							
Handled With	Bikes , Horses , On foot , Vehicles							
Assessor Comments	A line of good heifers from the coast north of Marlborough they have the ability to go on and thrive anywhere. The large percentage of polled heifers is very attractive , the dehorned heifers would also carry some polled genetics . Being on the coast these heifers have had access to Lantana. These heifers will produce good crossbred calves that will require minimal dehorning and suit any weaner market . One heifer has a stumpy tail.							
Assessor	Matthew Noakes (Level 3 Accredited) Phone: 0409 025 613
