-------------------------------	--

Vendor Bred	Yes
Lifetime Traceable	100% of cattle in this lot are Lifetime Traceable
Bloodlines	The herd has used Moongool Charolais plus Nindooibah and Palgrove Ultra Blacks bulls over Charolais and Charolais/Ultrablack cows.

Grazing Conditions	Cattle grazing native and improved pasture. Returned same
--------------------	--

Burr/Seed in Coat	No Burr or Seed of weeds declared noxious observed in the coats at assessment
-------------------	---

HGP Status	The owner declares that the cattle have not been treated with HGP at any period of their lives		
Health Treatments	Other Treatment	16/03/2022	Covine Toromec Pour-on
Eligibilities	PCAS Eligible		

Joining Details	Station Mated bulls put in: 03/01/2022 bulls taken out: 04/04/2022 (92 days) Bull Breed(s): Charolais To the vendors best knowledge, this lot has had no access to bulls or stags aside from stated joining period.					
Preg Tested?	Yes, this lot was pregnancy tested, by Bernard Skewes (Non-Vet Contractor) on 04/07/2022. 28 Head (100%) PTIC, from 3 to 5 months (at time of assessment 04/07/2022). Certificate Available.					
Other Joining Details	1 x 3 Months, 8 x 4 Mths, 19 x 5 Mths. EID and months in calf recorded at testing. May have had access to Nindooibah Ultrablack during joining.					
	Frame		Quality Grades		Store Condition	
	Large	54%	Very Good	65%	Fwd Store	25%
	Medium	46%	Good	25%	Store	75%
			Fair	10%		
Temperament	Yards		Crush		Paddock	
	Quiet: 24 head		Quiet: 12 head		Temperament not assessed in Paddock	
	Slightly Stirry: 3 head		Slightly Stirry: 10 head			
	Stirry: 1 head		Stirry: 6 head			
	The heifers were generally good to handle in the yards and through the race and crush. 10 head were mildly agitated and six heifers became highly agitated during preg testing and exiting the crush. In the bigger yard they were generally settled but four heifers were nervous and would not completely settle unless given more space. As a mob they tended to have a quieter lead, then push through the gates together with a quieter tail following behind. Nothing was aggressive.					
Handled With	Bikes					
Assessor Comments	A fair through to very good and excellent quality line of vendor bred heifers. The heifers were vet preg tested in calf to Moongool Charolais bulls and are 3 to 5 months in calf with the majority 5 months in calf. They have not had grain or cotton seed during their lives and are eligible for pasture fed programs. No active pink eye was observed in the heifers. There is a wider range in the age heifers as the drought forced an extended calving period and then two weanings in 2021. The heifers are showing good weight for age and had a LWR of 325 - 544 kg full weight at assessment. Given the breed type and the size of mature cows on "Boongalla" they should grow into mostly large frame cows. They are located right on the Leichardt Hwy between The Gum and Moonie and would work in with trucks moving north and south. Quality vendor bred heifers that are surplus to requirements and have been PTIC for a spring-early summer calving.					
Assessor	Andrew Wilkie (Level 1 Accredited) Phone: 0427 011 608					
Delivery Period	11/07/2022 to 15/07/2022 (5 days)					
Delivery Point	"Boongalla" yards, approx 25 north of Moonie on the Leichhardt Highway.
