Temperament	Yards		Crush		Paddock	
	Quiet: 20 head		Quiet: 18 head		Temperament not assessed in	
	Slightly Stirry: 1 head		Slightly Stirry: 3 head		Paddock	
	22 Hereford X cows and calves with very placid temperament. All cows and calves flowed quietly through the yards with only a very limited number of cows becoming stirry during mouthing. Calves no exception to this with all calves being very quite during interactions within the yards and during weighing. Overall, cows and calves were very easy to move through and work with in the yards.					
Handled With	Bikes , Dogs , Horses , On foot , Vehicles					
Assessor Comments	22 Hereford x cows with 22 Hereford x Angus calves at foot. 10 heifers have been PTIC back to the top quality LBW Angus bulls. All cows flowed well through the yards with temperament being a key factor at Spring Park Station, calves being no exception to this. All cattle are up to date with health treatments and are ready to hit the ground running. A very good line of young to middle age range cows with a small number of older cows in the mob., Would be ideal to add to current breeder stock given the right opportunity the cattle would make for a valuable asset. Buyers please note, one cow has pink eye scaring but not active and one broken mouth was observed.
