Assessor Comments	Small but good line of Angus heifers and calves, these are the true to type angus heifers and have plenty of frame, they are just starting to feel the effects of winter but still carry sufficient weight to cycle again soon for another winter calving. Ideal calving time in these heifers. They are stylish heifers that have been purchased off Auctionsplus and locally, grown out and joined to lbw angus and hereford bulls. Two heifers have a small amount of scarring(blue eye) in one eye. There are also 3 large calves that are approx 3/4 months old, just calved a little earlier than the rest but have not been rejoined so will fit back into a program well. There are 9 straight black angus calves and 7 Black baldies in this group.
