Assessor Comments	Small but good line of Angus heifers and calves, these are the true to type angus heifers just lighter in condition and feeling the effects of winter, these heifers have all calved in a tight 4 week period and ideal time to join back up and keep in a winter program. They are stylish heifers that have been purchased off Auctionsplus and locally, grown out and joined to lbw angus and hereford bulls. Three heifers have a small amount of scarring(blue eye) in one eye. There are 6 straight black angus calves and 7 Black baldies in this group, with one calf having a small lump on its jaw but causing it no feeding issues at all.
