Assessor Comments	A nice even 22 PTIC Charolais X young cows. These cows have just weaned their first calves a month ago and will start to improve pre calving on fresher feed. They are a nice medium framed young cow and have nice length and depth of body throughout. Cows have been joined to a Blue-E Red Composite bull to start calving in Oct-Early Jan. Cows that have put everything into their calves and where a pleasure to handle! Note cows have a few signs of lice
