Handled With	Both Cows and Calves were extremely easy to handle through the yards and around the paddock for photos/videos Bikes , Dogs , On foot , Vehicles																		
Assessor Comments	On offer is a line of 36 Angus cross Freisian cows with Speckle Park calves at foot. These packages have been broken into 2 lines of 18 run out the gate. Cows averaged 455kg at assessment and exhibit phenomenal milking abilities which can be seen within the photos. These fresh young cows are ideal for Embryo Transfer Recipients or could be joined back to a beef bull again and raise a cracking calf. Cows were bucket raised on a dairy Tooperang and are exceptional easy to handle. Cows and Calves both presented in good health and have been drenched and vaccinated 6 weeks ago.
