| Assessor Comments  | A fantastic opportunity to secure a line of vendor bred Angus heifers PTIC to the low birth weight & high indexing Shacorrahdalu Angus bulls. Heifers were originally 'classed in' to the Cameron herd on type & weight. They are only being offered as they are due to calve later than the rest of the herd after a 2nd joining and are out of synch with the vendors program. These heifers are a good representation of the Angus breed and are in ideal condition to be maintained leading in to calving. |
