Temperament	<table><tr><th>Yards</th><th>Crush</th><th>Paddock</th></tr><tr><td>Quiet: 38 head Slightly Stirry: 12 head</td><td>Quiet: 36 head Slightly Stirry: 14 head</td><td>Temperament not assessed in Paddock</td></tr></table> Generally a quiet mob of females to handle, just a few heifers were, understandably, a little unsettled in the crush, anticipating being Preg tested/Al'd again, once the head bale was opened, they just exited at a walk and were very sensible making their way back to their sisters. Extensively yard handled, & easy to walk around and take photos and videos of. Assessor Comments	Genetically speaking, exceptional young females, boasting a long rich history of select, high class Reiland genetics in their pedigree. Only the top 30-40% of heifers are retained as the replacements and put through the A.I program, which included these females, only being offered for sale due to missing out on the A.I joining and being naturally mop up joined to the L.B.W Reiland Angus Bulls. These are healthy young heifers that are beginning to spring up and look close to calving. Carrying a healthy fat score & in optimum condition to calve down with Winter still in front of them. Please see photos & video for full contentment.
