Assessor Comments	The sale of these core breeders is the first step towards the complete dispersal of the Maranoa Pastoral Herefords Spring calving herd. Renowned big females from one of the oldest Hereford herds in the greater Mitta district. Known for being milky mothers, producing enormous big calves. All steers are retained and grown out to bullock weights. Sires are purchased with a key focus on length, structure & 400 & 600DW. Cows that are getting on in age, but will still produce another calf or two without worry and then be a good heavy kill cow to trade in. Please see photos and video for full contentment.
