Assessor Comments	These Cows/Heifers weren't detected in calf at preg test on 01/07/22 but have been running with the bull since calving. They are a break up of first and second calvers they are good young mothers to run on for the future. Would be a great top up for your existing herd or a great base to start a Angus herd of breeders. Please take note 2 calves have pink eye but have been treated twice and are on the mend. Vendor has 3 more lots in this sale.
