Assessor Comments	A quality, large line of mixed sex flatback weaners that were weighed after a big curfew. Weaners were taken off mum the day prior to assessment and have stood up well. Weaners are from good quality genetics, sired by Cree Santas, Valera Vale Droughtmasters and Meldon Park Simmental Bulls by good quality Droughtmaster, Santa, Charbray and Brahman Cross cows. Weaners are predominately made up from Droughtmaster and Santa lines that have all the qualities of those breeds, good bone and muscle. The cows have done an excellent job on these weaners, with all the hard work done for buyers to put these into the paddock and pull out for many markets. There are five unmarked bull calves in lot. Seven head show warts around the face. PLEASE NOTE VENDOR HAS 3 x LOTS IN SAME SALE. Loading of weaners to be complete by Tuesday 19th July
