Bikes

Assessor Comments

Buyers, Here is a good line of soft vendor bred Charbray weaned future breeding heifers that average 241kg. These heifers present in good store condition, having very good length of body with muscle and bone. These heifers are tremendously soft easy doing types with plenty of depth flank and femininity. They are bred out of medium to large frame Trifecta charbray cows by top quality stud sires. These heifers are very good to work through yards and handle. Heifers would suit to background and make future breeders. Trifecta Cattle Co have a good reputation for performance both on grain and grass. Vendor has steers in same sale.
