Stirry: 2 head

The slightly stirry steers in the race & crush mostly walked away & settled once back with the mob. The stirry steers in the yards ran away from the mob & were unsettled in the mob. These steers would require more handling in the yards to improve behavior.

Assessor Comments

These Angus x steers will suit a backgrounder that does trade or heavy feeders, with 28 in the trade feeder weight at assessment. Could also be taken through to yearling bullocks. Of the steers handled there was 8 with ring worm scarring & 2 with warts around the near side eye. A small % of steers showed signs of lice at assessment . Buyers please note due to the wet seasonal conditions cattle have excess mud on legs & body. Vendor has 33 heifers listed same sale. Steers & heifers will run together until delivery.
