The slightly stirry steers in the crush did not settle while being weighed, most walked away from the crush, some did run but settled once in the mob. The steers moved freely in the yards & would require more handling to change behavior.

Assessor Comments

Buyers a line of EU steers that are predominately Angus. These steers would suit a backgrounder to take through to trade or heavy feeders. Of the steers handled there were 6 with a slight blue eye or blight scarring in 1 eye only, there was 5 with ringworm scarring & 2 with warts around the eyes. Buyers please note 1 steer had some white on the face & 5 showed red in the coat see photos. Vendor has 74 EU Angus heifers same sale.
