Assessor Comments	Buyers, here is a great line of well bred front paddock Santa, Charolais & Angus cross heifers that avg 286kg (no heifers retained). These heifers show tremendous softness with plenty of bone and muscle but still remain very feminine types. Heifers have great depth of flank with length and volume, and great weight for age with nice breed type. Heifers are out of medium to large frame cross bred cows by good quality Charolais & Angus sires. These heifers worked very well through yards. This line of heifers would make great future breeders. Heifers are grass only eligible and antibiotic free.
