Stirry: 2 head

Weaners stirred during assessment, settled back in the mob, uneasy when pressure applied. No aggression or malice shown.

Handled With Bikes , Dogs , Horses , Vehicles

Assessor Comments 44 vendor bred Devon cross weaner steers that have been bred on the lighter eastern country of Demon Creek and would normally be moved to our vendors better country to be grown out to feeder steers. Only being offered for sale due to one of their better properties being sold. Weaners were uneasy at drafting and assessment but nothing showed any aggression or malice with most behaviour normal to lesser handled weaners. Steers weighed 200kg to 312kg to average 233kg following a 16 hour curfew. These cattle will do well on improved nutrition. Brother & Sister lines in same sale.
