	The heifers haven't had a lot of handling in the yards. When yarded they have the tendency to stand off and move away without any pressure being applied. However throughout accessing they came around quickly and settled well. The heifers were very good to weigh. This was the first time that they have ever been weighed. They were weighed on a portable set of aluminum scales and stood perfectly. The heifers work well with a quiet approach.
Handled With	Bikes , On foot , Vehicles
Assessor Comments	Front paddock future breeders. Well bred heifers, ideal for a spring joining. The heifers are full KENMERE CHAROLAIS BLOOD. The heifers have plenty of eye appeal and presence. Well put together heifers that have length, depth and width. Lovely soft fleshing Charolais heifers.
