Assessor Comments	On Offer is a group of crossbred females 100% scanned empty. These heifers display plenty of length, growth and capacity for their age. Averaging 410kgs at assessment these heifers suitable as feeder heifers. Heifers have been on natural feed and should respond well to grazing crop or grain. 4 heifers had old pink eye scaring and 3 heifers did display signs of rubbing (see photos). Overall a quality group of heifers with plenty of potential.
