Assessor Comments	Outstanding run of Angus feeder steers. A total of 134 head to be sold in 2 lots and delivered as a run out the gate. Offering immediate compensatory weight gain. These steers are the ideal age, displaying good bone and maturity with the majority presenting as 2 score in condition and are primed for feedlot entry. These steers were specifically bought in to grow out to feeder weights. They consist of 2 lines purchased direct the breeder off AuctionsPlus and are the progeny of large framed Arndo Performance, Dollar and Banquet Angus genetics. 100% weighed from 430-520kg at assessment after a 13 hr curfew. 100% mouthed for buyer convenience being true to age with oldest steers only recently cutting 1-2 teeth (18 hd/134 hd). Antibiotic free and grass fed only. Vendor has a small portion of the same steers that weighed outside the parameters available to top up loads if required. 2 steers with minor old pink eye scarring-not an issue.
