Assessor Comments	37 Upper Murray Cold Country Bred Steer Weaners that present in genuine store condition with frame after coming through a cold start to winter. These calves display a great temperament and were a pleasure to assess. There was 1 steer at assessment with a slight active pinkeye which was treated, patched & should be cleared up at delivery, it still has full sight in both eyes. There was also an amount of ringworm on steers but it appears to be clearing up. There are 2 Black Baldy steers in the draft that the vendor will leave out if not wanted by the purchaser. 1st Vaccination of Bovilis MH + IBR at Weaning. Quiet, easy to handle, properly weaned steers that come from a strong cow herd and will perform for the successful purchaser.
