Assessor Comments	Buyers, one deck of very good quality Brahman heifers. These heifers are replacement quality heifers and will serve anyone well into the future as young breeders. One heifer was observed to have buffalo fly rub marks. These heifers are predominantly Greys with one Charbray cross heifer, three honey coloured heifers and two red heifers. These heifers are from a herd of cows that are seasonally mated, annually pregnancy tested and with a strong emphasis on sound udders, temperament and easy doing ability. An opportunity to buy a deck of very good quality heifers that have their whole lives in front of them. This vendor has one lot of cows and calves in the Eastern States sale and one lot of PTIC cows in the Eastern States Sale.
