Assessor Comments	This is an ideal line of Santa X steers that have plenty of frame and bone to really preform on crop or grain. The steers are currently gaining .8kg/day on natural Western Queensland pasture. Steers were all purchased as weaners early 2022 from the Winton district. They have all been treated with IMAX CD on 12th June. Vendor will deliver steers to Blackall to assist buyers with trucking as it is only a 2 deck lot. Please not a couple of steers with old ringworm scars, not affecting them. Steers that will preform and will not disappoint you!!
