Assessor Comments	Buyers a very good line of 52 freshly weaned Angus and Angus cross steers that present in good store condition. Steers stand on good bone along with good confirmation and have all the right attributes to make these steers reach their full potential. They have been brought in from the vendors western country and have been weaned in the "Holly Downs" yards since the 20/7/22. These steers are very tidy around the head with the majority being poled. This is a strong selection criteria when vendors are selecting their bulls. A sample of steers were mouthed with all being solid milk tooth. One steer at assessment with a slight scaring on eye however no problems with vision. Three steers with white on their bellies. A good line of black steers out of Angus and Angus cross cows sired by Wallangra Angus Bulls that will not disappoint any buyer. Vendor has another 78 steers of the same description in same sale.
