	Steers were good cattle to handle in the yard. There was only a few cattle become agitated whilst confined in the crush.		

Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , Dogs
Assessor Comments	Buyers a very good line of 50 Composite steers that present in good store condition. Steers stand on good bone along with good confirmation & have all the right attributes to make these steers reach their full potential. They have been on an oats crop since the start of June and are powering ahead & will continue to perform if given the opportunity. These steers are very tidy around the head with the majority being poled. A sample of steers were mouthed with all being solid milk tooth. At assessment it was noted that seven steers had ringworm around head and neck. Three steers with small warts around eye and some steers with a large amount of daggs on the tail due to the green oats going through them. A good line of composite steers out of Composite cows (Ex Cannaway Downs) sired by Red Angus, Charolais and Santa Bulls. Steers will not disappoint any buyer wanting to buy steers that will perform. Vendor has two other lots of steers in same sale to help with trucking.
