Assessor Comments	Buyers a Very good line of 78 Angus and Angus cross steers that present in good store condition. Steers stand on good bone along with good confirmation and have all the right attributes to make these steers reach their full potential. They have been on an oats crop since the start of June and are powering ahead and will continue to perform if given the opportunity. These steers are very tidy around the head with the majority being poled. This is a strong selection criteria when vendors are selecting their bulls. A sample of steers were mouthed with all being solid milk tooth. One steer at assessment with a slight scaring on eye however no problems with vision. One steer with warts around eye and some steers with a large amount of daggs on the tail due to the green oats going through them. A good line of black steers out of Angus and Angus cross cows sired by Wallangra Angus Bulls that will not disappoint any buyer.
