Assessor Comments	A very good line of Charbray type heifers. Heifers were vet preg tested empty on 12th July. Heifers are well grown and show good bone and type. Mouthed 30 heifers - 19 x 0th, 11 x 2th (incl 2 just cutting 2th). 3 heifers had very slight hump and 2 head had light brindle markings. These heifers have done very well since purchase and are still going ahead. Ideal for trade feeders or take through to heavier feeders or kill cattle. Would also be suitable as a line of future breeders to join to the bull of your choice. Vendor has Droughtmaster sisters to these heifers this sale.
