The heifers worked ok through the race and crush during the assessing process with 14 head being slightly agitated in the noisy crush. Mustering is done mostly with quad bikes, heifers have had little or no contact with horses or dogs.

Handled With Bikes , On foot , Vehicles

Assessor Comments A good quality line of heifers which are surplus to requirements. With mostly medium frame they suit to background to domestic feeder weights or to finish on grass or crop. The top end would suit as future breeders. The line presents as pretty much Angus, note breed types. There are 3 heifers in the line with a red tinge in the coat, one is a black broken baldy, one has white on the underline and one is pure red. One heifer was treated at assessment for pink eye in one eye, will be checked at delivery.
