Assessor Comments	Restockers note a very good quality line of future breeders. The vendor is not retaining any heifers this year and these are the top of the drop. EU, PCAS and GRASSLANDS accredited yard weaned heifers with medium frame, they will make excellent replacement heifers. They were scanned not detectably pregnant prior to assessment to ease buyers minds, certificate can be made available on request. There is one heifer in the line with a slight reddish tint in the coat.
