Assessor Comments	A good line of large framed Angus steers that are Bongongo & Reiland Angus Bloodlines, ready to respond to a feeding program or taken on to finish on grass. Steers show great development and weights for a line of young steers weighing 418Kg - 582Kg to Avg 481Kg at assessment. They present as large frame steers with excellent bone and length of body, These cattle have the potential to feed on to heavier weight grass or grain fattened steers and will respond quickly to a feeding program.
