Assessor Comments	Quality line of future breeders. While the vendor has retained some heifers, the quality of the overall herd presents these cattle as an ideal article to take forward into a breeding program. With a high focus on quality throughout bull selection, AI and the core breeding herd, you can be assured of an article that will fit right into any angus program. They have never had a check in their lives and will thrive on the back of continual weight gain through the winter months. Some white observed underneath. Please note, the vendor has two lots of steers from the same drop in this sale.
