Temperament	Yards	Crush	Paddock
	Quiet: 34 head	Quiet: 32 head Slightly Stirry: 2 head	Temperament not assessed in Paddock
	The cows were very good to handle in all parts of the yards, they worked well through bigger yards, through the race and crush. 2 cows noted as slightly stirry in crush were slightly agitated whilst being caught for pregnancy testing (not unusual). All cows settled back to the mob well after released from crush. Cows had calves pulled off them at assessment and this didn't seem to worry them.		
Handled With	Bikes		
Assessor Comments	Buyers a very good quality line of Pregnancy tested cows that have a lot of good breeding years left in them. Preg tested to very good Hereford bulls these cows are ready to go in the breeding herd. These cows have just had sizeable weaners pulled off them and i would expect will keep going forward before calving out. Buyers please note 1 cow had a horn rubbing her head which was tipped at assessment, this left a visible rub mark on the cows head at assessment. 3 cows had slight blue cloud in 1 eye and 1 cow had blue cloud in both eyes.
