Bull Breed(s): Angus

Preg Tested?	Yes, this lot was pregnancy tested, by Pittsworth Vet Surgery (Vet, NCPD ID: 1367) on 05/05/2022. 32 Head (100%) PTIC, from 4.5 to 7 months (at time of assessment 26/07/2022). Certificate Available.							
Other Joining Details	Heifers have been running with Mosquito Creek Angus Bull since 6th December 2021							
	Frame		Quality Grades		Store Condition		Muscle Score	
	Large	95%	Very Good	100%	Fwd Store	100%	C	100%
	Medium	5%						
Temperament	Yards		Crush		Paddock			
	Quiet: 32 head		Quiet: 32 head		Temperament not assessed in Paddock			
	Heifers were quiet to handle through yards, we did assessment not long after being yarded and worked through pound well. A couple of Heifers ran around a little as fresh from paddock. Heifers walked through crush/weigh box easily and quietly walked back to the mob. Theses heifers worked through the process with ease and no problems.							
Handled With	Bikes , On foot , Vehicles							
Assessor Comments	A quality draft of Angus & Angus Cross Heifers. There is a couple of Heifers showing a slight bit of Santa influence and 2 Heifers with a little white underbelly. 1 Heifer has a slight scur. These heifers were sensible to handle and would suit a breeder to join into their existing herd or a great starter herd for someone. Heifers have a stack of breeding behind them and joined to a quality Angus Bull. You will see preg test statement from Vet shows 39 tested, we drafted out a nice neat deck of 32 heifers and with-held a few of the lighter heifers. A smart line of heifers that will add value to your herd, located in TICK FREE area, with no restrictions. A positive preg test, Angus Heifers and preg tested back to a Angus Bull . Hard to find a neat line of Heifers with youth on their side .
