Comment on Fat Score 1 Cattle	Any score 1 cows vary from store to the odd cow backward store but are certainly strong and considered fit to travel most distances. Long distance travel may require a spell.

Preg Tested?	Yes, this lot was pregnancy tested, by Phillip Harpham (Vet, NCPD ID: 484) on 20/07/2022. 56 Head (100%) PTIC, from 5 to 7.5 months (at time of assessment 26/07/2022). Certificate Available.		
Other Joining Details	All PTIC red tags. Vet noted that most would average around 5.5 - 6 months in calf.		
Temperament	Yards	Crush	Paddock
	Quiet: 54 head Slightly Stirry: 2 head	Quiet: 56 head	Temperament not assessed in Paddock
	Cows were very easy to handle in the yards and crush. There were two cows that did resent being handled but temperament not considered an issue.		
Handled With	Bikes , Dogs		
Assessor Comments	A line of mainly large to medium framed store cows PTIC (all red tags). Cows are mainly 10.5 years however were not mouthed as there were no safe mouthing facilities available. I would suggest in this country that they could be in varying stages of wear. These will suit to calve out and either on-sell or take through to winter next year with a weaner calf to sell and an opportunity to fatten the cow on crop or herbage. Noted 1 cow with a capped hip and approx. 8 with old blue eye scarring or minor cloudy appearance, no issues here. Also noted a cow with a small soft lump on her back, would appear to be an abscess (photo attached). There are also signs of some lice on these cows so they would benefit from a backliner. Also a further 28 cows PTND also available and put together would make up a neat 4 decks.
