Assessor Comments	A high quality line of PTIC cows that are in calf to Booroomooka bulls with their 4th and 5th calves. These cows are due to start calving in just over two weeks for a period of approximately 10 weeks. Here is an opportunity to purchase units where all the hard work has been done. Cows are a very productive moderate frame article that have produced market topping weaners in recent years. Buyers please note there is a small percentage of cows with white udders.
